

New Zealand General Practice Dermoscopy Study

GP Consent form

Aim of the Study: To determine if using the 3 Point Check List improves skin cancer detection in General Practice

Principle Investigator: Dr Mark Foley . P.O. Box 382 Blenheim

- I have read the GP Information Sheet about this research and I understand it.
- I have had the opportunity to use whanau support or a friend to help me ask questions and I am satisfied with the answers I have been given.
- I agree to partake in this study.
- I am aware that taking part in this study is voluntary and I can withdraw from the study at any stage. I may do so without having to give any reason, and without suffering negative repercussions of any sort.
- I understand my personal, practice or patient details will not be identifiable in any published reports on this study.
- I understand that information gathered about my patients will be stored securely in electronic format in encrypted files. It will be only accessible to the research group. It will not be used for any purpose other than this research. The information will not be kept for use in any future research.
